<https://cita-portfolio.vercel.app>
Tangerang Selatan, Indonesia

Second year Computer Science student with experience in frontend development, mobile application development, and UI/UX design. Skilled in React, Next.js, Vue.js, Flutter, and Figma, with internship experience developing enterprise applications. Interested in game development and interactive digital products, combining programming, design, and problem solving to create meaningful user experiences. Actively developing technical and creative skills through personal projects, competitions, and continuous learning.

EXPERIENCE

Team Leader – Training & Course

2026 - Present

Ureeka Binus Alam Sutera

Tangerang, Indonesia

- Led the Training & Course team for the Alam Sutera region, coordinating team members and learning activities.
- Planned and delivered technical and digital learning sessions for BINUS students.
- Developed learning materials and adapted teaching approaches to participants experience levels.
- Coordinated schedules, team responsibilities, and class execution to ensure smooth learning activities.

App Developer Intern

July 2026 - Sept 2026

Pustekinfo Setjen DPR RI

Jakarta, Indonesia

- Developed Absensi SMART, a mobile attendance application for interns at the Secretariat General of the Indonesian House of Representatives using Flutter and Riverpod.
- Implemented attendance features including face liveness verification, geofencing, GPS validation, device identification, and photo-based check-in/out.
- Developed attendance workflows for WFO, WFH, leave, and sick leave, with location-based validation to support accurate attendance records.
- Contributed to both frontend and backend development, including API integration and backend development using Laravel.
- Collaborated with mentors and team members to refine UI/UX and ensure reliable application functionality.

Frontend Developer Intern

Oct 2024 - Mar 2025

AirNav Indonesia

Tangerang, Indonesia

- Developed a Customer Relationship Management (CRM) website to streamline communication between AirNav and airline clients, using Vue.js, Vuetify, and Laravel integration.
- Contributed to the development of a nationwide employee attendance system for AirNav staff, ensuring scalability and user-friendly design, using Flutter.
- Collaborated with the frontend and backend team to integrate APIs and enhance system performance.

PROJECTS

Eco Guide | Figma, Design Thinking, HCI

July 2026 – Sept 2026

- Developed a marine eco-tourism platform concept designed to promote responsible tourism and coral reef conservation at Pulau Pari.
- Designed role-based experiences for tourists, tour guides, and local tourism groups, including eco quizzes, NFC wristband interactions, and tourism ratings.
- Designed a coral reef risk monitoring concept that considers reef health, visitor capacity, weather conditions, boat activity, and reported violations.

- Contributed to the platform's UI/UX design and user flow to encourage more responsible visitor behavior and support local conservation efforts.

Carbonis | Next, React, JavaScript, Tailwind CSS

May 2026 – May 2026

- Contributed to the development of a sustainability-focused platform landing page using Next.js and Tailwind CSS.
- Participated in project pitching and presentation activities during the BRICS competition.

Discussion Forum Dicoding | React, JavaScript, Redux, CI & CD

May 2025 – June 2025

- Developed a discussion forum application as part of the Dicoding Expert React Developer program.
- Implemented authentication, thread management, comments, and voting features using React and Redux.
- Applied automated testing, Continuous Integration, and Continuous Deployment practices to ensure application reliability and maintainability.

Game Prototype | Unity, C#, Ibis Paint X

Aug 2024 – Oct 2024

- Designed the character concepts as the main artist.
- Supported the prototype by creating 2D game assets.

Tedikap App | Flutter, Dart, Figma, Firebase, Laravel

Dec 2023 – Sept 2024

- Developed the Seller-side mobile app for an e-commerce platform.
- Built using Flutter, integrated with a Laravel backend, and implemented real-time push notifications via Firebase.
- Focused on seller dashboard features, order management, and responsive UI/UX design.

EDUCATION

Bina Nusantara

Bachelor in Computer Science

Tangerang, Indonesia

Aug 2025 – Aug 2029 (expected)

SMK Raden Umar Said

Graduated in Software and Game Development (PPLG)

Kudus, Indonesia

Jul 2022 – May 2025

TECHNICAL SKILLS

Programming Languages: JavaScript, Dart, Python (Basic), C (Basic)

Frontend Technologies: React, Next.js, Vue.js, HTML, CSS, Tailwind CSS, Vuetify

Mobile Development: Flutter

State Management & Testing: Redux, Pinia, GetX, Riverpod, Automated Testing, CI/CD

Tools & Design: Git, GitHub, Figma, VS Code, Unity, Blender

EXTRACURRICULAR/ CERTIFICATION

- Infinitera 2.0: 3rd Place – UI/UX Competition
- Dicoding Indonesia: Expert React Developer
- Vanguard by UMN: 1st Place – Game Concept Competition
- BRICS IIC 2026: Innovation Award
- Dicoding Indonesia: Intro to Artificial Intelligence
- TOEIC (ETS): 765
